

Optional. FCC never requires this form. Use it if you want to record how the pool will be protected when your plans don't show it. Not used for public or commercial pools.

1 PROJECT

Project Address			
Owner		Parcel ID	

2 CONTRACTOR

Company			
Licensed Contractor or owner-builder		License No.	

3 HOW THE POOL WILL BE PROTECTED**A. CHOOSE ONE**

- ☐ **Barrier around the pool.** A fence, wall, screen enclosure, or combination at least 48 inches high around the whole pool, with outward-opening, self-closing, self-latching gates. (FBC-R 4501.17.1; F.S. 515.29)

Barrier:

A seawall, canal, or lake counts only when approved (FBC-R 4501.17.1.14.1).

- ☐ **Safety cover instead of a barrier.** A safety pool cover meeting ASTM F1346. (FBC-R 4501.17, Exception; F.S. 515.27(1)(b))

B. IF A WALL OF THE HOUSE IS PART OF THE BARRIER, CHOOSE AT LEAST ONE

- ☐ **Door and window alarms.** A UL 2017 exit alarm (85 dBA at 10 feet) on every door and window that opens to the pool; any shut-off switch at least 54 inches above the threshold. (FBC-R 4501.17.1.9, item 1)

Not needed on screened or protected windows with a sill at least 48 in. above the floor at pool level, windows above the first story, or screened or protected pass-through kitchen windows 42 in. or higher over a counter.

- ☐ **Self-closing doors.** A self-closing, self-latching device on every door that opens to the pool, latching at least 54 inches above the threshold. (FBC-R 4501.17.1.9, item 2)

- ☐ **Pool alarm.** An in-pool alarm independently certified to ASTM F2208. (FBC-R 4501.17.1.9, item 3)

- ☐ **Not applicable.** No house wall is part of the barrier, or it has no door or window opening to the pool. (FBC-R 4501.17.1.14)

4 WHAT I AGREE TO

- Installed before the final inspection.** Everything checked above will be installed and working before the pool final, which it cannot pass without them. If the protection changes, I will tell Freedom Code Compliance Corp ("FCC") before then. (F.S. 515.27(1); FBC-R 4501.17)
- Protection during construction.** If the building department requires a temporary barrier around the excavation or unfinished pool, I will keep one in place until the permanent features are in.

A city or county pool safety ordinance may require more than this form (F.S. 515.37(4)).

Under penalties of perjury, I declare that I have read the foregoing Residential Pool Safety Affidavit and that the facts stated in it are true.
